MLA Style Works Cited Page

What is a works cited page?
A works cited page is a complete list of any sources you used in writing your paper. It contains more complete information than in-text citations, and allows the reader to easily find the sources you used for your research. To cite different sources or for more information, consult the 8th edition MLA handbook or visit https://owl.english.purdue.edu/owl/resource/747/01/.

Special formatting to consider:
- The words “Works Cited” centered at the top of the page
- Double-spaced, 12-pt. font
- Alphabetical by whichever source element comes first; in most cases, the author’s last name
- Hanging indent

Books

Citation formula for a book with author listed:
Author’s last name, author’s first name. Title of Book. Publisher, year published.

Examples:
1. Single author:

2. Two or more authors (note: with two or more authors, each author’s name after the first is listed first name last name):

3. Book with unknown author:

Journal Articles

Citation formula for print journal articles:
Author’s last name, author’s first name. “Article Title.” Title of Journal, volume number, issue number, year, page numbers.

Example:
Citation formula for journal article retrieved from an online database:
Author’s last name, author’s first name. “Article Title.” Title of Journal, volume number, issue number, year, page numbers. Name of Database. DOI.

Example:

Compiled Works
Citation formula for short work in an anthology:
Author’s last name, first name. “Title of Work.” Title of Anthology, editor(s) of anthology, publisher, year, pages.

Example:

Citation formula for definition in an encyclopedia or dictionary:
Author last name, first name (if available). “Title of Entry.” Title of Encyclopedia or Dictionary. Edition number (if available), publisher, year of edition.

Example, definition in an encyclopedia (no author):

Web Sources
Citation formula for an entire website:
Author or editor’s last name, first name; if not available, list organization here. Title of Website. Publisher/sponsor of website (only list if organization is not the author). Update or publication date. URL.

Example:

Citation formula for a short work from a website:
Author last name, first name. “Title of Work.” Title of Website, date of short work’s publication, URL.

Example:
